Secure Cloud Storage Made Easy.

Veeam Data Cloud Vault

Veeam Data Cloud Vault introduces a fully managed, secure cloud storage resource that's purpose-built for Veeam backups. Architected to strict ZTDR principles, Veeam Vault ensures your business' most valuable asset is always safeguarded from whatever the world throws its way.

Better yet, we've eliminated the headaches of unpredictable cloud cost models to make budgeting and forecasting a breeze. Just let us know how much you need, and we'll handle the rest.

Feature Comparison
